DETAILED ACTION

Response to Amendment

1. Amendment filed April 14, 2004 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

3. Claims 3-17 and 35-43 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The disclosure, as originally filed, does not disclose "but not non-radially in the direction of rotation of the nozzle housing," "having walls that open outwardly of the said housing non-radially in the direction of rotation" and "for directing liquid outwardly of said housing in a non-radial direction" recited in claim 35. The disclosure, as originally filed, does not explicitly teach these negative limitations. Applicant is attempting to claim what his device is not or does not do rather than what it is or does do.
4. Claims 3-17 and 35-43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3752

Claim 35 recites the limitation "the first form" in line 6. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

5. Claims 44-46 are allowed.

Response to Arguments

6. Applicant's arguments filed April 14, 2004 have been fully considered but they are not persuasive. In response to applicant's argument directed to the rejection under 35 USC 112, first paragraph, applicant's explicit negative recitation, which was not originally disclosed, constitutes new matter. Applicant is attempting to define what his invention is not rather than what his invention is.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 3752

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
